

ShuleHub **yearly subscriptions**

White-label school SaaS · Chambaka · September 2026

Charge per school, paid in advance for 12 months. SMS, custom domain, and dedicated installs sit on top.

Basic — run the register. Standard — run the school. Professional — run the group. Enterprise — run it as your own system.

Commercial model

Schools already plan in academic years. One yearly invoice is easier for a board to approve than twelve monthly ones. Cash comes in up front; you suspend if they do not renew.

Item	Rule
Unit of sale	One school. A group with four schools buys four subscriptions (with a volume discount), not one vague platform licence.
Term	12 months. Align to their academic year when you can (for example 1 October – 30 September).
Payment	100% in advance (bank or mobile money). Termly only if they cannot pay annually — then charge 10–15% more than the yearly price.
Includes	Hosting, updates, email support, and the modules in that package. One branding pack (name, colours, logo) from Professional up.
Extra (always billed separately)	SMS bundles, custom domain (if not in the package), on-site training, data import, extra storage.
Control today	Tenant and school status: Active, Suspended, Archived. Data stays on suspend; they cannot work until they pay.

Do not split “academics plan” vs “finance plan” in year one. One full school product, gated by package. Do not bury SMS in the yearly fee — one busy school will wipe the margin.

Who each package is for

Package	Buyer	Typical school
Basic	One small school	Under ~250 students, still on paper, wants a digital register
Standard	One complete school	Needs academics, fees, and parent / student login — the main offer
Professional	Trust or education group	2–10 schools, own look, SMS to parents
Enterprise	Large group, diocese, or ministry	Many schools, own domain, dedicated install, written SLA

The four packages

1 school · ~300 students

Basic — records only

TZS 800,000 – 1,200,000 / school / year

Includes

- Headmaster, Academic master, and Teacher accounts
- Students, teachers, parents
- Academic years, classes, subjects, classrooms
- Teacher allocations and timetable
- School notices and dashboard counts
- Email login and password reset
- School name on the login screen

Not included: attendance, exams, report cards, fees, parent/student portals, messages, SMS, audit, extra schools, logo and colours.

Lead with this · 1 school · ~1,000 students

Standard — one complete school

TZS 1,800,000 – 2,500,000 / school / year

Everything in Basic, plus:

- Student attendance register and summaries
- Exams, marks, and published report cards
- Fees, invoices, and payments (Accountant role)
- Parent portal: children, balances, notices, report cards
- Student portal: timetable, attendance, fees, notices, report card
- Teacher home and in-app parent messages
- School audit trail
- Officers: Headmaster, Academic master, Accountant

Still one school. Still ShuleHub branding. No SMS. No extra schools.

2–10 schools · volume discount

Professional — group + own look

Standard list, minus 15–25% from school 2 · SMS extra

Everything in Standard, plus:

- Several schools under one organization
- Switch school as Headmaster
- Officers managed per school
- Branding: logo, colours, timezone, currency
- Custom domain (for example portal.haloschools.ac.tz)
- Parent SMS alerts (prepaid bundle, not in the year fee)
- Higher student cap per school, or unlimited
- Priority email support

Organization contract · 10+ schools or private instance

Enterprise — dedicated platform

Quote — floor plus per-school rate, setup fee on top

Everything in Professional, plus:

- Dedicated install (single-tenant) or a locked-down organization
- Full white-label — their name on the product, not ShuleHub
- Platform console hidden; they only see their schools
- Unlimited schools and students in that organization
- Platform-grade audit and configuration if they operate it
- Setup, data import, training
- Named support contact and a written SLA
- Optional own database or server

What is in each package

Capability	Basic	Standard	Professional	Enterprise
Schools	1	1	2–10	Unlimited / dedicated
Students (guide)	~300	~1,000	High / unlimited	Unlimited
People (students, teachers, parents)	Yes	Yes	Yes	Yes
Academics and timetable	Yes	Yes	Yes	Yes
Notices	Yes	Yes	Yes	Yes
Attendance	—	Yes	Yes	Yes
Exams and report cards	—	Yes	Yes	Yes
Fees, invoices, payments	—	Yes	Yes	Yes
Parent and student portals	—	Yes	Yes	Yes
In-app messages	—	Yes	Yes	Yes
SMS to parents	—	—	Add-on	Add-on
Logo and colours	—	—	Yes	Yes
Custom domain	—	—	Yes	Yes
Multi-school organization	—	—	Yes	Yes
Audit trail	—	School	School	School + platform
Dedicated / single-tenant	—	—	—	Yes
Full white-label	—	—	Domain only	Yes
Support	Email	Email	Priority	Named + SLA
Training and data import	Paid extra	Paid extra	Discounted	Included

Yearly list prices (TZS, starting guide)

Adjust after the first five sales. These are list prices, not costs. Lock the price for that year. Raise new and renewing prices next cycle, not mid-year.

Package	List / school / year	Notes
Basic	800,000 – 1,200,000	Raise if they exceed the student cap
Standard	1,800,000 – 2,500,000	Main offer — most private schools
Professional	Standard minus 15–25% from school 2	SMS bundle separate (for example 5,000 or 20,000 texts)
Enterprise	Quote	Floor (about 3–4× one Standard school) plus per-school rate and setup

How a subscription year runs

1

Quote and pay

They pay. You create the tenant and school, add officers, set status to Active.

2

Paid through

End date = pay date + 12 months, or the academic year you agreed.

3

Renew

Invoice next year 30 days before expiry.

4

Grace

14–30 days after expiry if unpaid.

5

Suspend

Organization or that school. Data stays. They cannot work.

6

Restore

They pay. You set Active again.

Contract one-pager

Clause	What to write
Parties	School name and organization (tenant)
Term	Start and end dates
Fee	Amount, package name, and what is included
Late pay	14–30 day grace, then suspend
Data	They own their data; they can export if they leave
Next year	You may change next year's price with 30 days' notice

How to sell it

Lead with **Standard**. Show Basic only if they cannot pay for fees and exams. Show Professional when they say “we have another campus.” Show Enterprise only in a meeting.

Until plan flags are enforced in the product, sell packages on paper and turn Professional extras (extra schools, branding, SMS) on by hand. Existing fields: subscriptionPlan, financeEnabled, attendanceEnabled, examsEnabled, custom domain, and single-tenant mode.

ShuleHub · Chambaka · Yearly subscriptions · Prices are a starting list in TZS and may change after the first sales · SMS is never included in the year fee
