

ShuleHub Students menu

Headmaster guide · How to run the school register

Sign in as Headmaster → left menu → **Students**

Admit · Create parent · Place · Move class · Keep login safe

Who this is for

This page is the school register. As Headmaster you can do every action on it. School admin and Academic master can do the same. Teachers and accountants can open the list but cannot admit, suspend, or promote.

Set up **Academic years** and **Classes** (with sections) under Academics before you admit students. Promotion needs a target year and class.

Open the page

- 1 Sign in with your Headmaster email or phone.
- 2 If you have more than one school, pick the school first (Schools).
- 3 Click **Students** in the left menu. Title: "Directory and admission".

What you see

Part of the screen	What it is for
Show archived	Tick to see deactivated students so you can restore them.
Admit student	Opens the form for a new learner.
Table	Admission number, name, photo, email, parent, class and section, status.
Tick boxes	Select one or more students for promotion at the bottom.
Sort	Click Name, Email, or Status to sort the list.
Row buttons	Edit, report card, history, unlock, reset 2FA, reset password, suspend, deactivate, restore.
Promotion card	Preview and apply promote / repeat / graduate / transfer.

Status chips: Active, Suspended, Archived, and extras **Locked** (too many failed logins) and **2FA** (authenticator enrolled).

Admit a student

- 1 Click **Admit student**.
- 2 Enter **First name**, **Last name**, and email. Middle name and nationality are optional.
- 3 Enter a phone number (Tanzania format). If you leave password blank, ShuleHub creates a temporary password and tries to SMS it to that phone.

4 Choose year, class, then section. Add gender, roll number, date of birth, blood group, admission date, address, emergency contact, and medical notes as needed.

5 Optional: upload a photo (JPEG, PNG, or WebP, max 2 MB).

6 Optional: tick **Create parent now** (see below).

7 Click **Save student** and confirm. The admission number is assigned automatically. If you ticked Create parent now, the parent account and the link are created in the same save.

If SMS is not configured, the student (and parent) are still created. Give them the password another way. Email cannot be changed after admit — edit the rest of the record instead.

Create a parent during admission

Use this when the guardian is new. You do not need to open the Parents page first.

1 On the Admit student form, tick **Create parent now**.

2 Enter parent name and email (both required).

3 Enter a parent phone, or set a parent password. If you leave the password blank, ShuleHub creates a temporary password and tries to SMS it.

4 Choose the relationship: Father, Mother, Guardian, or Other. Occupation and address are optional.

5 Save student. The parent is linked as primary contact, emergency contact, and invoice recipient.

Save stays disabled until the parent has a name, email, and either a phone or a strong password. If the parent email is already registered, the whole admit is rejected — change the email or link an existing parent after save.

Edit a student

1. Click the pen icon on the row.
2. Change names, class, section, phone, photo, or notes.
3. Click **Save changes** and confirm.

Admission number stays on the form header so you can see who you are editing.

Link a parent later

If you did not create a parent at admit, or the parent already exists:

1. If they are new, add them under **Parents** first.
2. On a student with “No parent”, click **Link**.
3. Choose the parent and the relationship (Father, Mother, Guardian, Other).
4. Click **Link parent**.

To remove the link, click **Unlink** and confirm. The parent account is not deleted.

Keep a student login safe

Unlock

Shows when the row has a Locked chip (five failed logins). Confirm Unlock so they can sign in again at once.

Reset password

Creates a temporary password. If they have a phone, ShuleHub sends it by SMS. Confirm before you click.

Reset 2FA

Shows only if they enrolled Google Authenticator. After reset they set up 2FA again at next sign-in.

Suspend

Active students only. They cannot sign in. Use this for a short stop, not a leaver.

Deactivate and restore

1. **Deactivate** archives the student. They leave the normal list. Data stays.
2. Tick **Show archived** to find them.
3. **Restore** brings a suspended or archived student back to Active.

Deactivate is for leavers you may need again. Prefer Suspend if they will return this term.

Report card and enrolment history

Button	What happens
Book icon	Opens that student's report card (published results only for parents/students; you can see more as Headmaster).
List icon	Opens enrolment history: promote, repeat, graduate, transfer, with year, class, section, and notes at the time.

Promotion (end of year)

- 1 Tick the students in the table. The Promotion card shows how many are selected.
- 2 Choose an action: **PROMOTE** (next class), **REPEAT** (same class, next year if you leave year blank), **GRADUATE**, or **TRANSFER**.
- 3 Choose year, class, and section for the new placement. Add a short note if useful.
- 4 Click **Preview**. Check From → To for each name.
- 5 If the preview is right, click **Apply** and confirm. History is written for each student.

Always Preview before Apply. Apply cannot be undone from this screen — you would admit or promote again to correct a mistake.

Typical day

Job	Clicks
New admission with guardian	Admit student → fill → Create parent now → Save student
New admission only	Admit student → fill → Save student
Wrong class	Pen → change class/section → Save changes
Attach an existing guardian	Students → Link on the row
Forgot password	Reset password on the row
Cannot sign in (locked)	Unlock
Left the school	Deactivate (or Transfer in Promotion if they move school)
End of year	Tick class → Preview → Apply

If something fails

What you see	What to do
Empty class or year lists	Open Academics and create the year, class, and section first.
Cannot save a new student	Need first name, last name, and a phone or a password that meets the strength bar. If Create parent now is ticked, parent name, email, and phone or password are also required.
Email is already registered	The parent (or student) email is in use. Use another email, or admit without Create parent now and Link the existing parent.
Photo rejected	Use JPEG/PNG/WebP under 2 MB.
“No SMS was sent”	Student still saved or password still reset. Check the phone number, or tell them the password in person.
Parent list empty when linking	Add the parent on the Parents page first. Archived parents do not appear.
Preview / Apply disabled	Tick at least one student in the table.
