Admit · Address · Insurance · Place · Promote

Who this is for

This page is the school register. As Headmaster you can do every action on it. School admin and Academic master can do the same. Teachers and accountants can open the list but cannot admit, suspend, or promote.

Set up **Academic years** and **Classes** (with sections) under Academics before you admit students. A student can be admitted or edited with **No year** and **No class**. Promotion needs a target year and class when you move them.

Open the page

- 1 Sign in with your Headmaster email or phone.
- 2 If you have more than one school, pick the school first (Schools).
- 3 Click **Students** in the left menu. Title: "Directory and admission".

What you see

Part of the screen	What it is for
Show archived	Tick to see deactivated students so you can restore them.
Search	Type a name, admission number, email, phone, class, nationality, insurance provider, membership number, parent, or status to filter the list as you type.
Admit student	Opens the form for a new learner.
Table	Admission number, name, photo, email, parent, class and section (or — if none), status.
Sort	Click Name, Email, or Status to sort the list.
Row Promote	On an Active student. Opens the promotion form for that student only — name and admission number are already on the form.
Row icons	Gold tiles so they stay visible: pen (edit), book (report card), list (enrolment history). Other row buttons: unlock, reset 2FA, reset password, suspend, deactivate, restore.

Status chips: Active, Suspended, Archived, and extras **Locked** (too many failed logins) and **2FA** (authenticator enrolled).

Admit a student

- 1 Click **Admit student**.

2 Enter **First name**, **Last name**, and email. Middle name is optional. **Nationality** is a dropdown and is required. **Tanzanian** is already selected; change it only if the student is not Tanzanian.

3 Enter a phone number (Tanzania format). If you leave password blank, ShuleHub creates a temporary password and tries to SMS it to that phone.

4 Year can stay **No year**. Class can stay **No class** until you place them. If you pick a class, you can also pick a section or leave **No section**. Gender, roll number, date of birth, and admission date are optional.

5 Complete the address (required). See **Address** below. Emergency contact, blood group, insurance, and medical notes are optional.

6 Optional: upload a photo (JPEG, PNG, or WebP, max 2 MB).

7 Optional: tick **Create parent now** (see below).

8 Click **Save student** and confirm. The admission number is assigned automatically. If you ticked Create parent now, the parent account and the link are created in the same save.

If SMS is not configured, the student (and parent) are still created. Give them the password another way. Email cannot be changed after admit — edit the rest of the record instead. Save is blocked until region, district, ward, and street are filled in.

Address

Every student address, and every parent created on this form, uses the same location lists: region, then district, then ward.

Field	Required	What to do
Region / Mkoa	Yes	Pick the region. Districts load for that region only.
District / Wilaya	Yes	Pick after the region. Wards load for that district only. Changing the region clears district and ward.
Ward / Kata	Yes	Pick after the district. Changing the district clears the ward.
Street / address line	Yes	Mtaa, building, or house number.
P.O. Box	No	Leave blank if they have none.

An address saved earlier as one line appears in Street. Choose region, district, and ward before you save that student again. If the three lists stay empty, the location service is not running — you cannot save until they load.

Emergency contact, blood group, and insurance

Field	Required	What to do
Emergency contact name	No	The person to call, separate from the parent link.

Field	Required	What to do
Emergency contact phone	No	Their phone, in Tanzania format.
Blood group	No	Dropdown: A+, A-, B+, B-, AB+, AB-, O+, O-. Leave Choose if unknown.
Insurance provider	No	Dropdown of Tanzanian providers, including NHIF, iCHF, NSSF, Strategis, Jubilee Health, Assemble, and AAR. Leave Choose if they have no cover.
Add provider...	No	If the insurer is missing, choose Add provider... , type the name, and click Add . That name is selected for this student and stays in the list on this computer. Saving with the name already typed also adds it.
Insurance membership number	No	The card or membership number.
Insurance expiry	No	The date the cover ends.
Medical notes	No	Allergies or other notes. This is separate from insurance.

Create a parent during admission

Use this when the guardian is new. You do not need to open the Parents page first.

- 1 On the Admit student form, tick **Create parent now**.
- 2 Enter parent name and email (both required).
- 3 Enter a parent phone, or set a parent password. If you leave the password blank, ShuleHub creates a temporary password and tries to SMS it.
- 4 Choose the relationship: Father, Mother, Guardian, or Other. Occupation is optional. Parent address is required, in the same way as the student: region, district, ward, and street. P.O. Box is optional.
- 5 Save student. The parent is linked as primary contact, emergency contact, and invoice recipient.

Save stays disabled until the parent has a name, email, and either a phone or a strong password. The parent address must also be complete. If the parent email is already registered, the whole admit is rejected — change the email or link an existing parent after save.

Edit a student

1. Click the gold pen icon on the row.
2. Change names, nationality, phone, address, emergency contact, blood group, insurance, photo, notes, year, class, or section. Address still needs region, district, ward, and street.
3. To take them out of a year, choose **No year**. To take them out of a class, choose **No class** (section clears). To keep the class and drop only the stream, choose **No section**.
4. Click **Save changes** and confirm.

Admission number stays on the form header so you can see who you are editing. Email cannot be changed here.

Saving **No year** or **No class** really clears that placement. The list shows — instead of a class name. Place them again with Edit, or with Promote on that row.

Link a parent later

If you did not create a parent at admit, or the parent already exists:

1. If they are new, add them under **Parents** first.
2. On a student with “No parent”, click **Link**.
3. Choose the parent and the relationship (Father, Mother, Guardian, Other).
4. Click **Link parent**.

To remove the link, click **Unlink** and confirm. The parent account is not deleted.

Keep a student login safe

Unlock

Shows when the row has a Locked chip (five failed logins). Confirm Unlock so they can sign in again at once.

Reset password

Creates a temporary password. If they have a phone, ShuleHub sends it by SMS. Confirm before you click.

Reset 2FA

Shows only if they enrolled Google Authenticator. After reset they set up 2FA again at next sign-in.

Suspend

Active students only. They cannot sign in. Use this for a short stop, not a leaver.

Deactivate and restore

1. **Deactivate** archives the student. They leave the normal list. Data stays.
2. Tick **Show archived** to find them.
3. **Restore** brings a suspended or archived student back to Active.

Deactivate is for leavers you may need again. Prefer Suspend if they will return this term.

Report card and enrolment history

Button	What happens
Gold book tile	Opens that student's report card (published results only for parents/students; you can see more as Headmaster).
Gold list tile	Opens enrolment history: promote, repeat, graduate, transfer, with year, class, section, and notes at the time.

Promote, repeat, graduate, or transfer

There is no Promote button at the top of the page. Open the form from the student's row. The form already knows who they are — you do not pick a name again.

1 On an Active student, click **Promote**. The form title is their name. The subtitle shows admission number and current class.

2 Choose an action: **Promote** (next class), **Repeat** (same class; next academic year if you leave year blank), **Graduate**, or **Transfer**.

3 Choose year, class, and section for the new placement. Add a short note if useful. Close, Cancel, Escape, or a click outside closes the form without applying.

4 Click **Preview**. Check From → To.

5 If the preview is right, click **Apply** and confirm. History is written. The form then closes. Repeat on the next student if you are moving a class one by one.

Always Preview before Apply. Apply cannot be undone from this screen — you would edit the student or Promote again to

correct a mistake.

Typical day

Job	Clicks
New admission with guardian	Admit student → address → Create parent now → parent address → Save student
Record insurance	Pen → Insurance provider (or Add provider...) → membership number and expiry → Save changes
New admission only	Admit student → fill → Save student
Wrong class	Pen → change class/section → Save changes
Student with no year or class yet	Pen → No year / No class → Save changes (or leave them empty at admit)
Attach an existing guardian	Students → Link on the row
Forgot password	Reset password on the row
Cannot sign in (locked)	Unlock
Left the school	Deactivate (or Promote → Transfer if they move school)
Move one student	Row Promote → set year/class → Preview → Apply
End of year for a class	Promote on each student in turn → Preview → Apply

If something fails

What you see	What to do
Empty class or year lists	Open Academics and create the year, class, and section first.
Cannot save a new student	Need first name, last name, nationality, region, district, ward, street, and a phone or a password that meets the strength bar. If Create parent now is ticked, parent name, email, the same address fields, and phone or password are also required.
Region, district, or ward list is empty	The location service is not available. Wait until the lists load, then choose region, then district, then ward.
Old address will not save	It is sitting in Street as plain text. Choose region, district, and ward, then save again.
Insurance provider is not in the list	Choose Add provider... , type the name, and click Add .
Email is already registered	The parent (or student) email is in use. Use another email, or admit without Create parent now and Link the existing parent.
Photo rejected	Use JPEG/PNG/WebP under 2 MB.
"No SMS was sent"	Student still saved or password still reset. Check the phone number, or tell them the password in person.
Parent list empty when linking	Add the parent on the Parents page first. Archived parents do not appear.

What you see	What to do
Year or class still there after I chose No year / No class	Restart the API if it was already running, then Save changes again.
Promote form not on the page	That is expected. Click Promote on the student's row.
